Index of Articles and Authors for 1972

January
Realizing the Radical Relatedness of Technology and Education–P. Kenneth Komoski
The Integration of Humanism and Educational Technology–Perry E. Rosove
Three Essays on Our New Movement: I. A Theory of Three; II. How to Name Our Baby; III. Tell It What It Is–Charles W. Slack
Technology and Freedom–Kenneth H. Silber
Informal Education with Instructional Systems?–Felix F. Kopstein and Robert J. Seidel
The Free School Movement: Freedom to Learn Badly? Some Social Psychological Observations–Richard I. Evans
Freedom in a Free School–Roy A. Moxley, Jr.
Educational Technology's Humanistic Teacher–Sidney J. Drumheller
Informal Education, Motivation and Technology–Richard R. Landers
Behavioral Objectives and Humanism in Education: A Question of Specificity–Asahel D. Woodruff and Philip G. Kapfer
Differential Strategies Allowing for Openness in Education–Frank E. Williams
Can Spontaneity Serve as a Curriculum Base?–Fenwick English
Videocassettes, Formalists and Informalists in Education–George N. Gordon and Irving A. Falk
The "Open" School: Education's Runnymeade?–Charles A. Wedemeyer
Educational Technology and the Free School Movement–Gabriel D. Ofeish and Mary Elizabeth McIlvane
Open Education: Some Tasks for Technology–Lauren B. Resnick
Alternatives or Needs–An Epilogue to This Issue–Wm. Clark Trow
Educational Technology Reviews: B.F. Skinner's *Beyond Freedom and Dignity*–Robert E. Silverman; George N. Gordon

February
Introduction to the Systems Approach in Educational Planning and Management–Richard H.P. Kraft and Raymond F. Latta
Training Educational Administrators in Anasynthesis–Leonard C. Silvern
Educational Management by Systems Techniques in Correctional Institutions–T. Antoinette Ryan
A Systematic Strategy for School Renewal–David S. Bushnell
Systems Concepts and Computer-Managed Instruction: An Implementation and Validation Study–Walter Dick and Paul Gallagher
Use of the Computer in Educational Management–Duane C. Shaw
Educational Planning as a Vehicle for Systems Change–Richard H.P. Kraft and Susan Padro
A Systems Approach to Library Problem Solving–Charles L. Hubbard, Gerald Jahoda and Robert Torter
An Introduction to the Educational Planning-Programming Budgeting System–Roger L. Sisson, C. Edwin Brewin, Jr. and Benjamin H. Renshaw
Changing Management Approaches in a Large State Education Department–Norman D. Kurland
Social Acceptability of the Systems Approach in Educational Planning–Ashok Dave
Project Management in School Administration–David I. Cleland and William R. King
A Systems Analysis of Systems Education–Bela H. Banathy
The Lattice Systems Approach: Systems Technology for Human Development–James F. Budde

March
Special Issue Introduction: Many Roads May Lead to Individualization–Robert B. Davis
Children's Knowledge and Individualized Instruction–Herbert Ginsburg
Individualization of Instruction in Mathematics–What Is It?–M. Vere De Vault and Harold Jung
Individualized Mathematics Programs in Elementary Schools–Lyn McLane
IPI: A Program for Individualizing Elementary Mathematics Instruction–Alice Hosticka
The LAP–A Feasible Vehicle of Individualization–Sally M. Cardarelli
Individualizing Mathematics Learning Through the Math Lab–Bernard M. Kessler
An Account of Individualizing an Upper Elementary Math Program and Implementing a Math Lab–Opal Wong
Record Keeping in a Math Lab–Charles Wilbur
Individualizing Occurs When Thinking Becomes Visible–Rose Grossman
LOGO–A Programming Language for Teaching Mathematics–Wallace Feurzeig and George Lukas
Individualizing Instruction in Elementary School Mathematics: Preparing the Teacher for the Task–Joseph R. Hooten, Jr. and Michael L. Mahaffey
Personalizing Mathematics Teacher Preparation–W. Robert Houston and Loye Y. Hollis
Individualized Instruction–Some Observations from the Ivory Tower–J.A. Easley, Jr. and Klaus G. Witz
Is Individualization the Answer?–Eugene D. Nichols
Where Is All of This Leading Us?–Robert B. Davis

April
Twenty Things to Do with a Computer–Seymour Papert and Cynthia Solomon
PPBS: A Status Report with Operational Suggestions–Harry J. Hartley
The Theory of Triads–Charles W. Slack
Quick and Dirty Tricks to Teach Across the Generation Gap–David Alan Gilman
Adapting Instruction to School Objectives and Student Needs–John A. Connolly and Mary L. Hoaglund
The Video Cassette as an Educational Reality–Stanley C. Gabor
Conceptual Model of Classification Behavior–F. Ross Woolley and Robert D. Tennyson
What Entertainment Television Has to Teach Instructional Television: A Communications Model for Improving In-School Television–Lee J. Dudek
The Lexicon of the Computer–Gary D. Brooks and James M. Lyon
The Systems Approach in the Community College–Dezo V. Silagyi and James J. Blanzy
Effective Counseling: Necessary But No Longer Sufficient–Robert K. Conyne and Richard C. Diedrich
The Skillshop for Teacher Inservice Training–Donald E. Mowrer
Evaluations and the Fate of Innovations–John M. Flynn
Guidelines for Developing Instructional Products–Craig Locatis and Frank Smith
Regional Action Network of Professor Consultants: A Replicable Curriculum Change Mechanism–James M. Mahan
Groundwork for a Student Centered Experimental College–Richard W. Malott, Patricia Ann Hartlep, Michael Keenan and Jack Michael
Analog and Hybrid Simulation in Science Education–Donald Martin
Educational Technology Reviews: *Computers in Undergraduate Science Education*–Robert J. Seidel

May
Neither Soviet Giants nor Windmills but Cybernetic Devices–Bryce F. Zender, Jr.
Curriculum Making as a Game Designing Task–Sidney J. Drumheller
Comprehensive Instructional Mission-Systems for Universities–Lawrence E. Fraley
A Checklist for Instructional Software Design–Louis Topper
Educational Technology: A Selected Bibliography–Catherine R. Dobson and Donald G. Leatherman
Beware the "Good Teacher"–Michael T. Hinkemeyer and Michael Langenbach
Distinctions Between CAI and CMI Systems–Robert Fromer
A Cybernetic Modification Scheme for an Instructional System–Mical C. Clark and M. David Merrill
Toward the Automated Workbook: A New Direction for CAI–Peter Rosenbaum
Evaluation of Preschool Education–Ofelia Halasa
Film as an Instrument for Evaluation–Thomas A. Dwyer and Margot D. Critchfield
Computer and Television: A Joint Venture for Education–John L. Vitelli
A New View of Reinforcement in Learning–William O. Gay and Bobby L. Stephenson
Management by Objectives: A Management System for Education–Robert E. Boston

Teacher & Technology Supplement
Educational Innovation Today: A Collage–Donald Mrdjenovich
Happily Hand in Hand: CATV and the Classroom Teacher–J. David Truby
The Classroom as a System–Martin R. Wong and Joyce M. Wong
The Application of a Flowchart Process to Learning Difficulties in Secondary Schools–Janet W. Freund
A Simplified Dial-A-Tape Program for School and Home Instruction–Alex Reuter
Should the Classroom be Off-Limits to Televised Instruction?–Irene Zabawski
Edu-Kinesics: The Non-Verbal Language of the Classroom–Bartholomew J. Ciampa
Video Tape Can Be Useful–Robert J. Miltz
Ex-Innovators as Barriers to Change–Bob F. Steere
The Video Inservice Program: Development of a Model–John H. Baillie

June
Differentiated Staffing for Program Development: An In-Depth Look at an Incentive Model–Philip G. Kapfer and Miriam B. Kapfer
The Joint United States-India Educational Broadcast Satellite Experiment–Kenneth A. Polcyn
Technology in Reading Instruction–John F. Savage
The Generalist–Vanishing Instructional Developer–J. Warren Anderson
A New Model for Psychological Services in Educational Systems–Walter S. Lee
Some Basic Concepts of Educational Information Systems–Gerald R. Boardman, Bernice Doerr and Eduard Van Gelder
Recommendations Regarding Performance Contracting–Office of Economic Opportunity (OEO) Project Directors
Behavioral Descriptors as a Means for More Effective Media Selection and Utilization–Thomas C. Wilson
Specifying Behavioral Objectives–Roy A. Moxley, Jr.
Technology or Printed Media: Separate Areas of Interest–Winston Eshleman
ETV Has Arrived–At Least in Some Places–Jack B. Spatafora
Media Messages on Their Own Terms–Danny G. Langdon
Describing Decision Settings in Education–Philip Ward, Jr. and Robert A. Lehman
Written Composition and the Computer–John Risken
Direct Measurement of Collegiate Teaching Effectiveness–J. Marvin Cook

Training Technology Supplement
Using Self-Paced Learning to Train Service Representatives
The Utility of an On-Line Computer-Based Educational System for Industry–Elmer C. Bartels
Job Placement–A Vital New Element in Vocational Training–Alan L. Hanline and Dan A. Peterson
Some Reflections on the Use of Computers Within a Graduate Management Education Environment–Francis E. James, Jr. and Donald R. Edwards
The Pros and Cons of Management Games–Donald E. Calvert
Computer Assisted Lesson Service for Independent Study–W.L. Brothers

July
Beyond Behavioral Objectives–Albert R. Wight
Some Detours and Alternate Routes Leading to Large-Scale Exemplary Uses of CAI–Theodore Abramson and Max Weiner
The Notions of Simulations and Games: A Preliminary Inquiry–Donald R. Cruickshank
The Proposed Brazilian Educational Satellite Experiment–Kenneth A. Polcyn
Developing a Methodology for Designing Systems of Instruction–Polly Carpenter
A Summary of Ten Major Studies on CAI Drill and Practice–John F. Vinsonhaler and Ronald K. Bass
Needed: Information for Cost Analysis–Gene L. Wilkinson
Process Education: Its Meaning and Merit–Henry P. Cole
A Model for Simulation of an Educational Problem–Moses Stambler
The Concept of Instructional Individualization–Larry E. Frase
An Overview of Computer-Managed Instruction–John M. Finch
Accountability: What Is Being Done to Make It Possible in the Junior College?–Edward N. Hobson
A Model for an "Objective Recognition" Education and Guidance System for Vocational Education–Alan P. Woodruff
Educational Technology and the Health Professions at Hostos Community College–Marilyn E. Schima
Effects of a School Principal Praising Parents for Student Attendance–Rodney E. Copeland, Ronald E. Brown, Saul Axelrod and R. Vance Hall
Using Media in the Library–Richard W. Hostrop
An Analysis of Conventional and Experimental Approaches to School Design and Construction–John H. Frederickson
Cassette-Cartridge Compatibility a Must–Daniel G. McAuliffe

August
Teacher and Technology As-Media or Technology-As-System: Implications of "To Improve Learning" for Teacher Training–Philip W. Tiemann and Susan M. Markle
Models of Individualized Instruction: The Search for a Measure–Robert G. Packard
Up the Programmer: How to Stop PI from Boring Learners and Strangling Results–Dudley Post
Using Behavioral Objectives Menus in the "Survey" Course–Joy Rogers
Differentiated Staffing as a Component in a Systematic Change Process–Clinton E. Boutwell
The Systems Approach as an Administrative and Program Planning Tool for Continuing Education–Carroll A. Londoner
Keeping Track: A Recording System for Individualization–Jon I. Young and Lyle E. Holder
An Evolving Theory of Instruction–Francis J. Di Vesta
Innovation in Education: Needed–A New Professional–J.D. Raulerson, Jr.
Analysis Approaches in Instructional Design–James L. Sherrill
Computer Assisted Instruction in Reading: Grades 4-6–J.D. Fletcher and P. Suppes
The Involvement Matrix: A Prelude to Effective Systems Design–Harry C. Springer and Frederick T. Giles
Television in Remedial Education–Peter Turner and Sean Walmsley
Architecture and Human Behavior: Toward Increased Understanding of a Functional Relationship–Steven M. Zifferblatt
Estimates of Teaching-Learning Time–Frank C. Pratzner
A Systematic Approach to Learning Resource Center Design–Douglas E. Hansen

September
Introduction to Learning Packages–Philip G. Kapfer and Miriam B. Kapfer
The UNIPAC: A Form and Process for Individualizing–William B. Feild and Gardner Swenson
The Single-Page Learning Model–Leonard F. Dalton
The Learning Activity Package (LAP)–James E. Smith, Jr.
The PLAN System as an Application of Educational Technology–John C. Flanagan
The Duluth Contract: What It Is and What It Does–Thorwald Esbensen
Materials for Individualized Instruction: An Interpretation of Goals–John O. Bolvin
An Instructional Module Design–Richard W. Burns
Personalized Instruction or, What to do when they put a number on your back, issue you a bullhorn and schedule your class in the football stadium–David G. Born and Steven Zlutnick
The Audio-Tutorial System: Incorporating Minicourses and Mastery–S.N. Postlethwait and Robert N. Hurst
The ComPac: An Instructional Package for Competency-Based Teacher Education–William M. Bechtol
The Structure and Substance of the WILKIT Instructional Module–Cassel D. Burke
Training Packages: An Innovative Approach for Increasing IMC/RMC Potential for Teacher In-Service Training in Special Education–Dale D. Baum and Thomas G. Chastain
TULSAPAC: Anatomy of a Learning Package–Bruce Howell
Program 100: Developing Instructional Systems to Improve Teaching Competencies–Charles C. Jung
Minicourses: Individualized Learning Packages for Teacher Education–Walter R. Borg
The Life-Involvement Model of Curriculum and Instruction–Philip G. Kapfer and Asahel D. Woodruff
Discovery Boxes–Rebecca Corwin
An Instructional System Conducive to Humanism: CEMREL's Aesthetic Education Program–Stanley S. Madeja
A Taxonomy for Decision-Making in Individualized Instruction–Donald T. Tosti and N. Paul Harmon
Classroom Management of Learning Package Programs–Lucille W. Smith and Philip G. Kapfer

October
The School Organization as the Target of Change–Arthur Blumberg
Organizational Development as a Process Strategy for Change–Paul C. Buchanan
Educational Planning with Organizational Development: A People-Involving Approach to Systemic Planning–Donald M. Levine, C. Brooklyn Derr and Richard P. Junghans
Strategies for Consultant-Client Interface–Samuel Goldman and William Moynihan
Barriers to Organizational Development Training for Schools–Arthur Blumberg and Richard Schmuck
A Multi-District Organizational Development Effort–Fred C. Feitler and Lawrence L. Lippitt
The Impact of Organization on Curriculum Change–Dennis D. Gooler and Donald P. Ely
Developing Collaborative Decision-Making: The Importance of Trusting, Strong and Skillful Leaders–Richard Schmuck
Organizational Development in a University Setting: Some Problems of Initiating Change–Newton Margulies
Organizational Change and the Teacher–Linda Lehman
Organizational Change and the Principal–Alexander M. Swaab
Organizational Development: An Idea Whose Time Has Come–Fritz Hess and Gerald Greenstein
Book Review: *Organization Development in the Schools*–Martin Felsen
A Critique: Has OD Become a Social Technology?–Ronald G. Havelock

Teacher & Technology Supplement
A Systems Approach to Coaching Football(?)–Paul Geisert
Using a Typewriter in the First Grade Classroom–Joanne Robinson Mitchell
Accountability: Weapon or Tool–Stan Dropkin
Technology Brings Instruction Home–Carmen J. Carsello and Joseph F. Morrison
Instructional Implications of a Low-Cost Electronic Student Response System–Raphael Littauer
The Computer as a Classroom Tool–Catherine Morgan and William M. Richardson
Technology Aids Self-Evaluation–Joe Lars Klingstedt
Toward Internal Locus of Control in the Community College Student–George A. Baker, III

November
Introduction to Competency-Based Education–Richard W. Burns and Joe Lars Klingstedt
Philosophical Basis for Competency-Based Education–Joe Lars Klingstedt
Psychological Implications of Competency-Based Education–Jon I. Young and Adrian P. Van Mondfrans
Competency-Based Learning: An Analysis of Polyadic Interaction–Ronald V. Kidd and Luiz F.S. Natalicio
Empathy Competency: A Search for New Direction in Canadian Teacher Education–P.G. Halamandaris and A. John Loughton
Behavioral Objectives for Competency-Based Education–Richard W. Burns
The Student Will Appreciate Competently . . . –Mary B. Harbeck
Learning Modules for Competency-Based Education–Joe Lars Klingstedt
A Humanized Model of a Computer Managed Instructional System–J. Bruce Burke, Julia O'Neill and Kay Welsch
Elementary Curriculum Design for the Future–Elmer C. Ellis
Secondary Curriculum Design and Competency-Based Education–Horace E. Aubertine
Achievement Testing in Competency-Based Education–Richard W. Burns
Certification Issues in Competency-Based Teacher Education–Theodore E. Andrews
Accreditation and Performance-Based Teacher Education–Lorraine R. Gay and K. Fred Daniel
Relating Communications Technology to Competency-Based Education–Charles C. Wall and Richard C. Williams
The Human Side of Competency-Based Education–Alfred S. Alschuler and Allen Ivey
Competency-Based Education and the Open Classroom–Francis Rice
Implications of Competency-Based Education for Urban Children–Leon M. Lessinger
A Review of the Research on Performance-Based Teacher Education–Joel L. Burdin and Moira B. Matheson

Training Technology Supplement
Army to Develop Prototype CAI System
Implementing Tutorial CAI in an Industrial Environment–Marguerite Krupp
Effective Use of the Photocopy Machine in Teaching Drafting–Harold E. Levenson
Advancing Instructional Technology Through Air Force Research
Individualized Instruction in Office Skills Through the Use of Media–Harriet Nakamoto, Joe Chun, Harold Pohlod, Gerald St. James and Eleanor Skimin

December
Application of Psychology to Educational Technology–Lawrence M. Stolurow
The End of an Era in American Education–George N. Gordon
It's a Word, It's a Name, It's . . . an Educational Technologist–George Geis and Jan Klassen
Levels of Concept Mastery: Implications for Instruction–Dorothy A. Frayer, Elizabeth Schwenn Ghatala and Herbert J. Klausmeier
Inferential Statistics, Operant Conditioning and Distinctions Between Teaching and Evaluation–John M. Throne
Comment by James S. Coleman; Reply to Coleman by Throne; Comment by Egon G. Guba; Reply to Guba by Throne
Affective Priorities and Educational Objectives–David T. Miles
A Four-Domain Taxonomy for Classifying Educational Tasks and Objectives–Bruce W. Tuckman
Lay and Professional Opinion in Selecting and Evaluating Educational Goals and Objectives–Marvin C. Alkin and David Churchman
The Tools of Instructional Technology–Frederick G. Knirk and Mary C. Ware
A Technology-Based Educational System Using Computer Management–R.W. Hayman and W. Lord
The Humanist and Computer Assisted Instruction–or Until the Lightning Struck–LaVerne W. Miller
Teaching Classification by Computer–James G. Holland and Judith Doran
Book Review: *The Fourth Revolution: Instructional Technology in Higher Education*–Joseph B. Margolin
